PROFESSIONAL SUMMARY

Technical Product & Program Leader with experience owning technology strategy, product roadmaps, operational processes, and leading cross-functional execution. Proven track record of translating organizational requirements into scalable digital products and partnering with engineering teams through the full software development lifecycle. Experienced partnering with engineering, operations, and executive stakeholders to deliver systems that improve efficiency, scale services, and drive organizational impact.

PROFESSIONAL EXPERIENCE

Crime Stoppers of Houston

June 2024 – Present

Director of Technology | *Houston, TX*

April 2026 – Present

- Set technical strategy and organizational vision for multi-program initiatives, aligning technical priorities with organizational goals and leading cross-functional teams to deliver scalable systems and digital products that strengthen data infrastructure and platform capabilities.
- Directed technology operations across multiple organizational programs, balancing stakeholder priorities, defining KPIs, managing delivery timelines, and driving continuous process improvements.

Technical Program Manager-All Programs | *Houston, TX*

November 2025 – April 2026

- Led technology initiatives across 8+ product lines, defining roadmaps, prioritizing delivery, and implementing scalable systems that supported a 15x increase in organizational capacity and user demand.
- Owned end-to-end program execution including requirements gathering, roadmap planning, prioritization, and bi-monthly release cycles, delivering dashboards, data tools, and digital resources across multiple concurrent initiatives, aligning technical delivery with organizational priorities.
- Directed development and launch of a student-centered digital platform, achieving 10x projected engagement and driving 26K users and 104K interactions in the first month.
- Translated legislative and policy requirements into technical deliverables, enabling data-driven decision-making for Texas state leadership during the 2025 legislative session.

Technical Program Manager-The Glenda Gordy Research Center | *Houston, TX*

February 2025 -

November 2025

- Owned technical strategy and end-to-end program execution of the Glenda Gordy Research Center, building scalable data infrastructure and products that expanded access to public safety data.
- Facilitated Agile sprint planning, backlog refinement and prioritization with engineering and non technical teams to align product delivery with organizational goals.

Data Analyst-The Glenda Gordy Research Center | *Houston, TX*

June 2024 - February 2025

- Designed and delivered interactive dashboards and data products, translating complex datasets into scalable reporting solutions that informed community stakeholders and legislative decisions.

Airship

Data Engineering Intern | *Portland, OR*

January 2022 - June 2022

Nike

Data Project Manager | *Beaverton, OR*

March 2020 - May 2022

Act-On Software

Software Engineering Intern | *Portland, OR*

June 2021 - December 2021

EDUCATION

- **Portland State University** - Portland, OR
Master of Science in Computer Science (MS), Software and Data Engineering
- **Gonzaga University** - Spokane, WA
Bachelor of Arts (BA), Mathematics and International Relations

SKILLS

- **Program and Project Management** - Project Management, Software Development Lifecycle, Workplan Management, Budget Management, Agile & Waterfall Methodologies, Technical Roadmap Design, Project Planning,

Product Roadmapping, Product Lifecycle Management, Requirements Gathering, Stakeholder Engagement, Cross-Functional Collaboration, Build & Release Coordination, Dependency Management, Risk Mitigation, Resource Allocation, Cross-Functional Leadership

- **Systems, Data & Engineering Fundamentals** - Data Infrastructure, Data Products, SQL, Data Analysis & Reporting, KPI Development, Data Visualization, Trend Analysis, System Reliability, CI/CD, Build Pipelines, Testing & Validation, Version Control (Git), Software Delivery Lifecycle
- **Tools and Platforms** - Jira, Asana, Git, GitHub, AWS, Tableau, Google Analytics, Excel, Smartsheet, Figma, Canva, Microsoft Office Suite
